Summary

I am a Front-End Developer with 3+ years of experience building fast, responsive websites using HTML, CSS, JavaScript, React, and Tailwind. I also use AI tools like ChatGPT, Copilot, and Dall-E to enhance development and design.

Work Experience

Freelance Front-End Developer

Freelance and Remote job | 2023 - present

- Developing professional UI/UX using HTML5, CSS3, Tailwind CSS, and JavaScript (ES6+)
- Designed and built responsive websites including e-commerce UIs, portfolio templates, and landing pages
- Integrated basic interactivity such as filter systems, cart logic (with localStorage), and event-driven DOM manipulation
- Managed personal projects and client-based tasks using GitHub and Netlify
- Created assets using Adobe Photoshop and Figma for custom design elements
- Continuously learning React, Node.js, and MongoDB toward full MERN stack skills

Self Learned Front-End Developer

Self-Lerner | 2021-2023

- Learned foundational web design skills including HTML, CSS, and basic layout techniques
- Practiced designing static web pages, personal blogs, and simple landing pages
- Gained experience with text formatting, images, basic forms, and responsive layout concepts
- Used free tools like VS Code, GitHub, and Google Fonts to build and share small projects
- Built early projects like personal pages, practice portfolios, and educational landing pages
